

Missouri-Foxtrotting-Horse offspring in Switzerland

In 2009 two Missouri-Foxtrotting-Horse foals were born at Mrs. Dr. Marlene Zähler's farm in Switzerland. One foal out of mare „Sunset“ - which is out of our breed - and one foal from „Lady Rosebud“ - which Mrs Zähler imported pregnantly from the US.

Meanwhile, the two young stallions had to (were allowed to) „go to school“ - they were lucky to receive the first lessons from Parelli-instructor Berni Zambail.

In the next weeks the stallions will be separated from their mothers and they will spend their adolescence with our young stallions at our farm.

We are looking forward to it!
